### GEMSTAR COMPLETES MULTI-MILLION DOLLAR PROJECT IN TORONTO

The *Shangri-La Hotel and Residences*, centrally located between Toronto's Financial and Entertainment Districts, is a luxury condo hotel which provides its guests with serenity, sumptuousness and security. The condo hotel features 500,000 square feet of interior and exterior slab and tile finishes, including 375 condos with full wall slabs, 210 hotel rooms, 3 restaurants, banquet facilities and a full service spa. Tile and vanity material in each suite was carefully matched to the slab finishes to deliver a truly unique and custom look in each washroom. This level of finish is unprecedented in a multi-unit high rise construction and illustrates the uniquely visionary qualities of James Cheng and Hariri-Pontarini Architects design.

### GEMSTAR ANNOUNCES THE ADDITION OF VENTILATED FAÇADE SYSTEMS TO ITS PRODUCT PORTFOLIO

In partnership with Agrob-Buchtal & Cerages, Gemstar enters into Ventilated Façades with the KeraTwin K20 System.

- ◆ Easy installation thanks to low-weight panels that come in a variety of sizes

### GEMSTAR ANNOUNCES REDESIGN OF GEMSTARGROUP.COM

Featuring many new project photos, the new website redesign boasts a clean and up-to-date look thanks to Mischief Media.
